Dear Sir, Madam,

Thank you for excepting my comments

I as an individual am very upset at the settlement proposed by the DOJ. I can not begin to understand why the DOJ went out of its way to excuse Microsoft for law's they have broken. I do not see the DOJ playing the role of a Prosecutor, but as an ally. I mean to say, from looking at the settlement It seems as if the DOJ is helping Microsoft continue to suppress technology that conflicts with the Windows desktop.

I understand the importance of the war against terror, but I can not except that as an excuse for injustice .

I have no fear that you Judge Colleen Kollar-Kotelly will reject the proposal brought by the DOJ.

Thank you for excepting my comments.

Jomo K. Brown
